Question on Software or Operating system.

Icon Text not Transparent on Desktop

When the text under the icons on your desktop are not transparent, like the image on the left. There are two things to check. First open System from the Control Panel, as shown below.

Select the **[Advanced]** tab, and click the **[Settings]** button under the **[Performance]** header.

Make sure that you are on the **[Visual Effects]** tab, the option **(1) [Smooth edges of screen fonts]** is checked, also needed is **(2) [Use drop shadows for icon labels on the desktop]** have this item checked.

(3) [Apply]
(4) [OK]

If this still doesn't do the trick, **right-click the desktop**, point to **[Arrange Icons By]** and make sure that **[Lock Web Items on Desktop]** is un-checked.
