

Coffee Break

Question on Software or Operating system.

Desktop Wallpaper

Where are the 'Desktop' wallpaper images kept?

When I click an image for a trial wallpaper where is it moved to?

The example shown here illustrates an image been chosen an 'Set as Wallpaper'

To 'Set an image as Wallpaper',

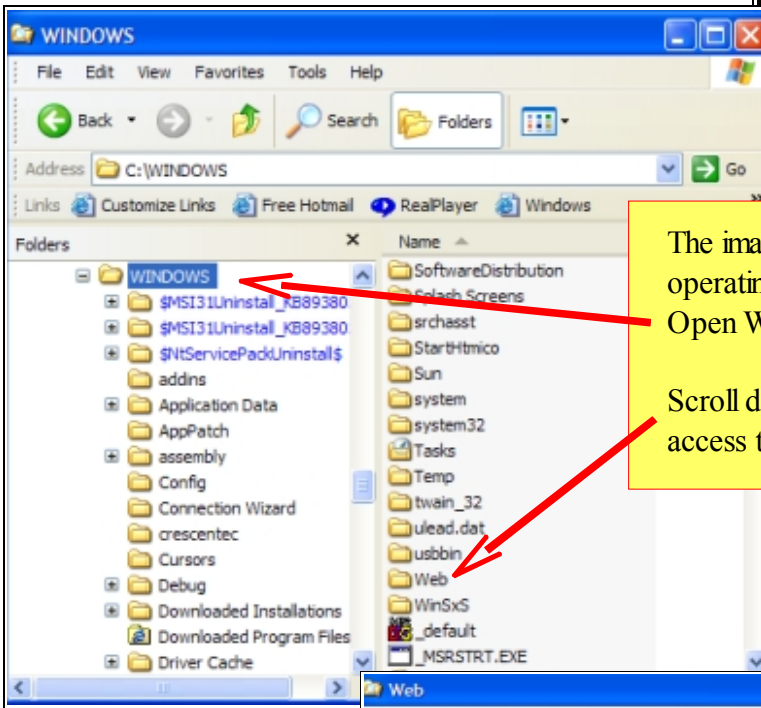

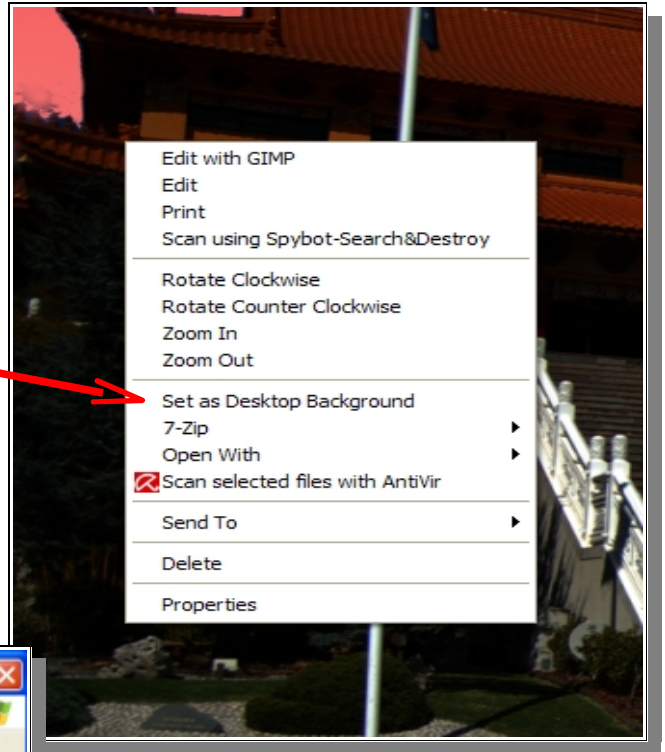

Select your image and RIGHT click the mouse button on the image.

LEFT click.....

'Set as Desktop Background'

Your chosen image is now the Desktop Wallpaper.

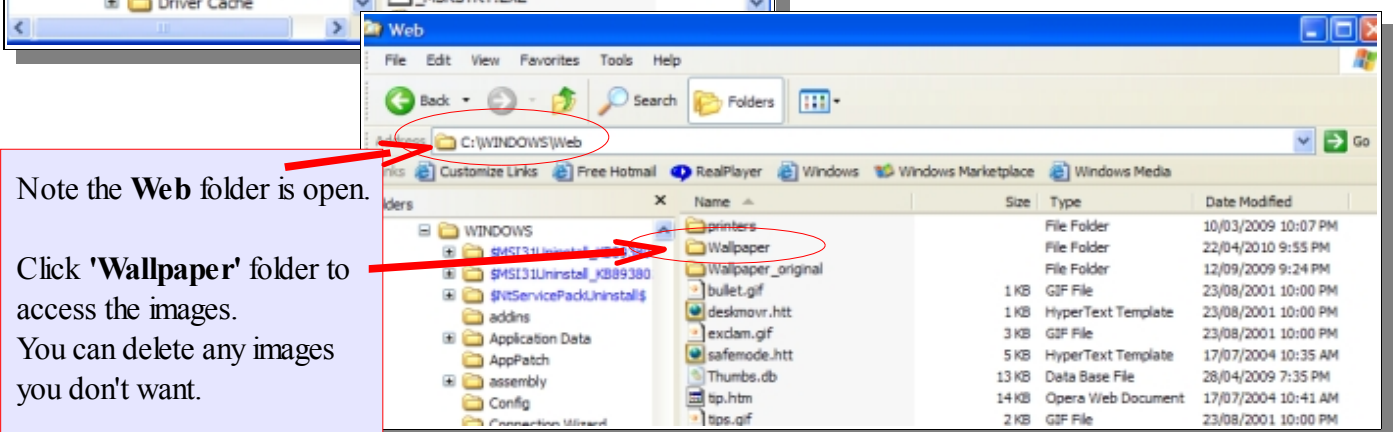

The image is also copied to the Wallpaper folder.

The images for the 'Wallpaper' are located in 'Windows' operating folders.

Open Windows Explorer then click the **Windows** folder.

Scroll down and find the **Web** folder. Click this folder to access the **Wallpaper** folder.

Note the **Web** folder is open.

Click '**Wallpaper**' folder to access the images.

You can delete any images you don't want.
