Paul (1879-1945)

Notes:

1. Variations in the spelling of this name include a shortened form: Ruby. It was probably shortened in a similar way as Lithuanian was abbreviated to Lithy. Both Roubis and Rauba have been cited. Lithuanian women used different spelling variations from their husband's suggesting that Raubuite is the correct spelling for Agnes.
2. Doubtful spelling of the name Lycyskas.
3. Variations in the spelling of Paul's name included Van Weiriwgin and Van Weiringer.
4. This name was taken to avoid being associated with his family. William adopted his wife's name.
5. Marge Erdos described the Crightskum family in some detail. She also referred to it as the Crightskamus family, and there are obvious derivations of this spelling in the descendants. (My father, John Crichton, spoke of Chernoski as the name of his forebears, but he was uncertain.) May Baird referred to the name Joseph Kraickama, but was uncertain as to whether the correct spelling included an 's' as in Kraiskama, and believes the name was changed to Cricton (sic) at about the time of WWI. I suspect Kraiskama is more likely as there is a phonetic similarity between this and Crightskum, particularly if the first and third 'a' are pronounced softly, or not at all. It's possible that Crightskum was a misspelling of Kraiskama, or an attempt to

third 'a' are pronounced softly, or not at all. It's possible that Crightskum was a misspelling of Kraiskama, or an attempt to Anglicise the name.

6. The marriage certificate shows John's signature as John Bulsavage, his father's name was also shown as John Bulsavage, and his mother's name was stated as Annie Bulsavage with her unmarried surname as Crighton. He used the name Bulsavage because his biological father was unknown to him, and Bulsavage was his mother's husband's name at the time.

7. Matthew subsequently remarried, his second wife having the same name as the first. This information came from his daughter in law, Susan.

8. On the first day of his first job in Scotland, his boss refused to use Eddie's name saying, "From now on your name will be Smith." The name remained with him and his children.

9. Details of this line were provided by Tom Baltutis, and as yet I have not confirmed the accuracy of the existence of a single
