Hi Marc...

G'Day mate. How you and your family doin? The twins asking for the car keys yet?

Last time we made contact (a few months ago now) you were going to send me the download location for TLC (and its modules) and I'd asked you about eBook Creator (see you've finally got the new version up).

Anyway, I never got the email, or it got lost in the process (state of email delivery these days perhaps?)... and then I got busy and haven't followed up, doing so now.

Anyway, I'm suffering from TLC/ eBook Cover withdrawal. Is it possible to get the latest versions of the above?

Me, well... I'm doing exceptionally well. I've just become accredited as a Certified SBI Webmaster, and I've been focused on mastering RSS and its uses.

There's a new desktop-based communication program I've been doing the beta testing on (with which) I plan to be running online conferences. I'd love you to be my special guest when I run the conferences on web site design, interested?

Hope to hear from you soon.

Cheers
