

# The Recession

6-3-2012

When it comes to talking about our achievements on planet earth, we've accomplished quite a lot,...but the system and the earth look like a mess,...in so far as the ability to support life goes. Most information here is true,,, and some is guessed using logic,... while joining the dot's of all connected information, such as the net, and mainstream news, which often favors big business, and demonstrates corruption throughout our system. On asking people,...45% say, corruption is rife,... and another 45% agree with the first,,,then say,... what can you do about it,... as if to give up,... this is a big number, whichever way one paints it.

For centuries the wealthy, (who started as shopkeepers, and used to serve the community,.../ now, as big business,... runs government) have known the crime rate goes up on holidays, due to unhealthy living. They think they will be robbed,... so the workers are paid low wages to work long hours, which keeps them busy. If affluence increases, a war or recession is eventually applied,... which either, smashes property, or steals it. Then they lower the wages.

There was a town , west of Sydney, that was being robbed by its' council. The people refused to pay their rates, and it was resolved overnight. So here is a mainstream news quiz. A David Attenborough show says, a world land grab is happening. The net says our leaders want a world population of five hundred million only. Australian government says, it's population will go to 86 million,... but won't put water in the Darling River in dry times, and there's lots in Q.L.D., that will fix it. Farmers business is robbed as they run out, and are puzzled. Then they are robbed again on land payment, and driven off, while big business only,...is let in to buy Australia's only major food bowl for a pittance,...to provide the useless G.M. food. As soon as they've gone, the water is connected.

Haarp machines, are deadly weapons and control the weather,...create volcanic action, tsunamis, floods, droughts, cold winters, any time, control an approaching ice age in spurts,...damage competitors, then buy them out. Heat oceans,... while floods hit Australia in successive years, driving out towns folk, at huge loss, and no government financial help. Volcanic payback is served to countries, like Japan, Tibet and New Zealand, and the latter is offered more business closeness,...by a prompted Australia, one week before the quake.

Gas drilling,...started as a project to help us,...ruins the remaining eastern water supply,...drives farmers out, who must have good water, while boosting the prices for their mates water selling business,...as the government sits on lots of free energy patents, because it's hard to run a recession if the people have free energy. So who needs gas? Monsanto,...when pushed,..admits to dropping aluminum, barium and strontium, in chem. trails, (as a cover for all the other stuff they are dropping), and are dangerous to vegetation, as well, fire accelerants, a black Saturday indeed,.. while the farmers are driven out,...then grabbing the food and crop business, as paddocks start to grow less in following years, after the

onslaught of aluminum. They threaten the natural seed growers and replace it with something that couldn't happen naturally,...then when the recession hits,...natural seed that was the mainstay, and carried the people through all recessions is gone. Water companies buy all available water aquifers, as the U.S. just bought one of Australia's biggest,...while the Great Lakes near Canada are drained and sold to china, then put into bottles that react badly with plastic.

A current magazine says, the lakes are radioactive. Basics,..like gas and electricity are put up to speed up the recession. As the country is softened up for a recession, the flooding,...greens up the land, so it looks good for the new foreign buyers. Once food and water is concentrated into small areas, it can be withheld from people, in a revolt with few troops,...while supermarkets can run out of food in three days.

It's said there is a scam on lab made lime disease in Australia,...that only the U.S. treats properly, whilst those concerned wonder why everyone on the plane got sprayed as they entered Australia 18 years back. G.M. has sat on a perfectly good electric car during a polluted ten years. When business over fished the world with bigger ships, they picked Japan, (which has consumed whales for centuries),...to kill whales, dolphins and porpoises, because they eat the food that supply the fish and the highly important sea makes 80% of all oxygen.

A lot of market items kill, mobile phones, microwaves, TV's, electricity, pharmaceuticals, modern medicine, town water and petroleum products. That's the quiz. Most items mentioned here, happen all over the world, and more in some places. The only way out of this corruption, is to have a peaceful revolution worldwide, to make a brand new system. Only peace and kindness can work in that situation and nothing less. The world is a paradise, and has a brilliant repair system, if given a chance.

While thirty six states were ruined as a result of drilling for natural gas in the U.S. it appears not many city folk stood up for them and complained, or so it might appear,...which tells me that the effects of fluoride might have been responsible. It's been said that Hitler was helped by chemists during the war to pacify prisoners by dosing them with fluoride which comes from the strongest family of poisons. This leads one to the idea of it's use in western society and the fact that in Australia's parliament,.. laws and or bills are changed at night, while the workers sleep. Also it is true that Queensland had bad teeth problems which were improved with fluoride which exists naturally in some water, but I suppose the amount could be tweaked up to higher than one needs. A man by the name of Fritz Der Meer was working for a pharmaceuticals company ,..I G Faben in Germany during the war who were supplying the gas for places like Auschwitz amongst other things. When the war ended Der Meer was jailed for war crimes, for a period of six years. While in jail he was commissioned to set up a list of rules denouncing and shutting down natural medicine, to suit, I guess pharmaceuticals companies all over the western world. That list of rules is now called Codex, Alimentarius, and every year since then natural medicine has been slowly abandoned and the latest claim on TV was,... what proof has it of working, to

which one could ask,... is millions of years,.. use enough? Der Meer was let out after serving half his sentence. On after thought I should have said that Haarp can start fires as well as direct wind draft. All the bush growth from years of rain, is starting to look like a plan,... while earlier in the U.S., senators asked congress not to let Haarp drain the Ionosphere of its energy which was later shelved which some think helped the greenhouse effect along.

THE REASON FOR THE STATE OF PUBLIC HEALTH IS WIDE AND VARIED AND WHILE REGARDING DIET,..WORK AND LOCATION,..THE EFFECT OF CONTINUAL MISTREATMENT OVER THOUSANDS OF YEARS, IF NOT MANY MORE,.....WOULD HAVE A STRONGLY NEGATIVE EFFECT, WHICH COULD REFLECT THE WAY THAT FAMILIES TREATED THEIR RELATIVES, SIBLINGS AND FRIENDS, AND SO THIS MIGHT EXPLAIN WHY HEALTH SUFFERED AS A RESULT, PLUS THE FACT THAT IT REQUIRES SOME STUDY,...IN OTHER WORDS ITS PLAINLY NOT THEIR FAULT. THIS IS NOT TO SAY THAT THERE WEREN'T HUGE AMOUNTS OF TIME THAT PEOPLE WERE HAPPY.
